

If only the general manager knew how I'm spending my time...

I have better things to do with my time than plunging out clogged toilets. But since management went with the less expensive toilets, that's all I seem to be doing.

If they had asked me, I would have installed toilets with *FLUSHMATE*® inside. I've got a friend at another hotel who swears by them. *FLUSHMATE*-equipped toilets reduced engineering calls (and that means reduced guest complaints). Housekeeping said they found *FLUSHMATE*-equipped toilets easier to take care of, too. And management was overjoyed at the reduced bills (a 39% water reduction was the figure he gave me).

You know what? I'm going to my manager right now and insist that he install a test unit with *FLUSHMATE* inside. You should too. Find out how. Call 800-580-7141 now.

FLUSHMATE systems are available in 1.6 gpf (6 lpf) or 1.0 gpf (3.8 lpf) models from leading fixture manufacturers worldwide in a variety of styles and colors. For more information on these systems, including *FLUSHMATE*'s automatic sensor flushing systems, please contact us or visit our website: www.flushmate.com.
